## Informed Visibility® Mail Tracking & Reporting (IV®-MTR) Operation Codes List

This spreadsheet provides a list of operation codes (opcodes), also known as Scan Event Codes, for the IV-MTR application.

January 15, 2024

| Operation Codes List |                |                                      |                  |                       |                                                     |
|----------------------|----------------|--------------------------------------|------------------|-----------------------|-----------------------------------------------------|
| Machine Type         | Operation Code | Equipment Description                | Piece Mail Type  | Mail Level            | Mail Phase                                          |
| All                  | 000            | UNMAPPED SORT PROGRAM                | All              | Miscellaneous         | Miscellaneous                                       |
| AFCS200              | 004            | AFCS 200 - CANCELLATIONS             | Letters          | Cancellation          | Phase 0 - Origin Processing Cancellation of Postage |
